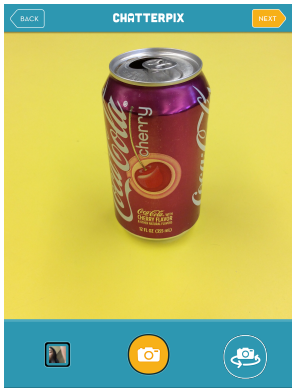
Chatter Pix Kids

Creating a Student Product with Chatter Pix Kids

- Launch the **Chatter Pix Kid** App

TAKE PHOTO Button – This button will launch the iPad camera. If you receive a message asking permission for Chatter Pix Kids to allow access to the camera and microphone, select yes.

GALLERY Button- This button will launch the gallery of saved student work and examples created by Chatter Pix Kids. It is possible to delete work in the gallery.



Getting the right Photo

- Select the **TAKE PHOTO** button to take a photo.

  Capture your subject by pressing the **camera button**.

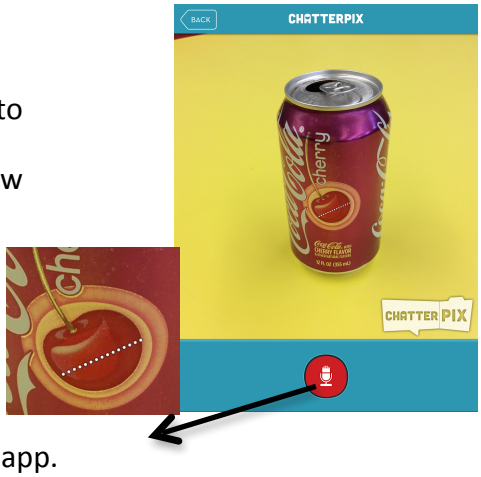
  I took a photo of a Cherry Coke can.

- Select the **Camera Roll** icon, on the bottom left, to select a photo from the camera roll of saved photos on the iPad.

- Press the orange **next button**, located at the top right of the app.

Recording Audio

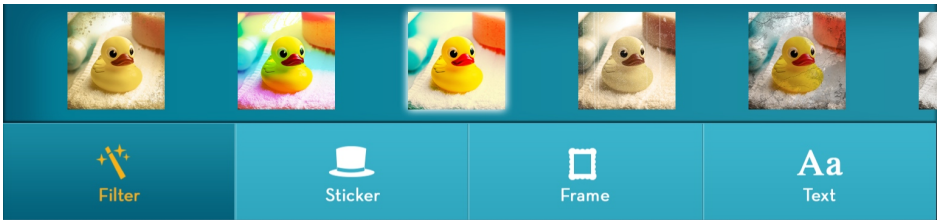
- Draw the mouth- use your finger to draw a straight line on one object. The line will become animated to look like a mouth. If you make a mistake, just redraw a different line over the picture.



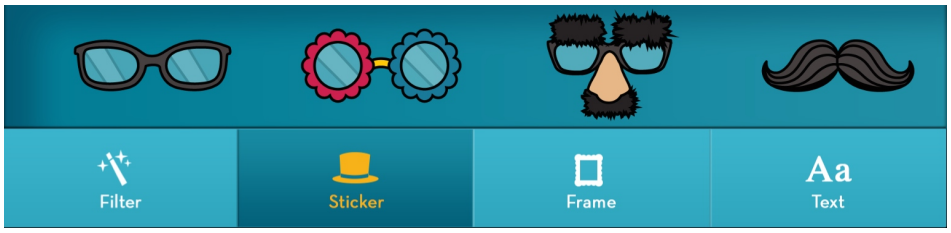
- Press the **red microphone** button at the bottom of the app.
- You will see the count down from 3-2-1.
- Begin recording up to 30 seconds of audio.
- Press the **microphone button** again to stop recording.
- Press the green **play** button (triangle) to listen to the recording.
- If you would like to record again, simply press the red **microphone** button again and re-record your work.
- Once you are satisfied with the recording, press the orange **next** button at the top right of the app.

Extra Features

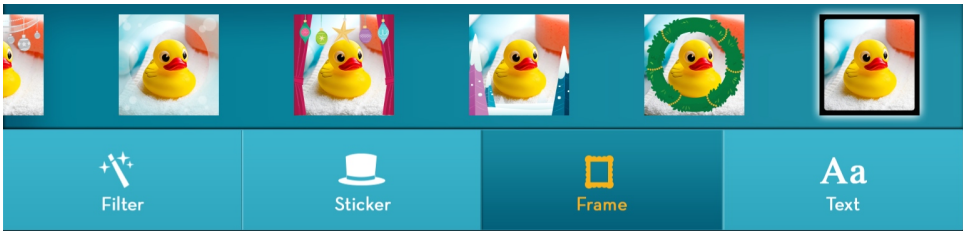
- The app has four extra features that can be applied to the recording.
    - Filter-scroll across to view additional filters, **tap the filter** you would like to apply.



- Sticker-scroll across to view additional stickers, **tap the sticker** you would like add to any photo.



- Frame- scroll across to view additional frames, **tap the frame** you would like to apply to any photo.



- Text- scroll across to view additional text fonts, **tap the font** you would like to apply to any photo. Tap the text box, type your message and select a color, drag to the proper place. Use the Red trash can to drag any text or stickers you do not want to appear in the saved product.

- Press the orange **Next** button on the top right of the app.

Chatter Pix Kids

- Press the Green **Play** button to watch the final product.

Saving and Exporting Student Work

- Press the **Save Video** button to save the video to the camera roll.
- Press the **Trash Button** to throw away the project.

Celebrate Student Work

- Share videos with the class.
- Post appropriate student work, with permission, to the class website for parents and community members to enjoy.
- Post appropriate student work, with permission, to a class or student blog or wiki.
